

Unlock Unlimited Possibility with Implementation Bundles

When Aurea launched Unlimited, which gives Aurea customers access to our entire software library, we didn't stop there. We knew that your success depends on being able to make rapid, effective, and business-tailored use of every product.

That's why we created Aurea Implementation Bundles. This collection of product launch packages gives you access to dedicated Aurea Professional Services experts to configure, implement, and deploy your production-ready solution.

Implementation Bundles are pre-packaged, product-specific professional services bundles that help you make the most of Unlimited by quickly implementing the right capabilities and use cases to drive your business.

The right groundwork for every deployment

For every Aurea product, there is an Implementation Bundle designed to lay a comprehensive foundation for your business through fully scoped, predictable, high-value services.

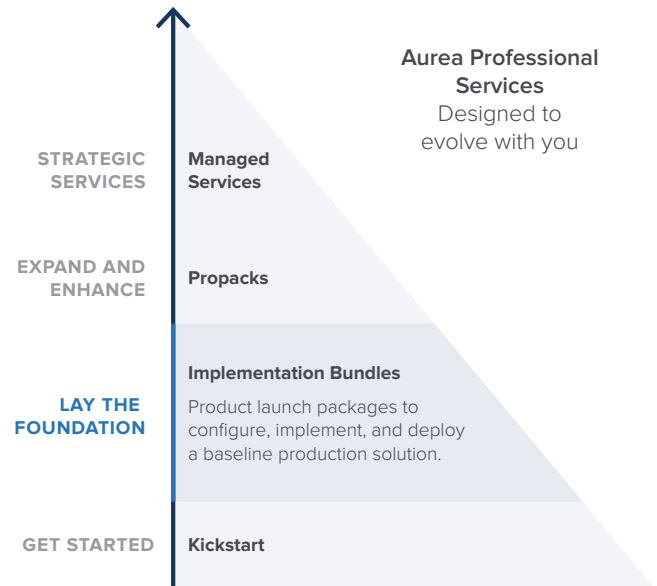

When you take advantage of an Implementation Bundle, you unlock a host of benefits:

Rapid time-to-value: Each bundle is carefully architected to help you tailor and deploy Aurea Standard Edition software. The services focus on delivering production-ready, value-driving use cases and configurations that get you up and running quickly.

Access to the best professional services experts: Each Implementation Bundle is managed and delivered by Aurea Professional Services experts. You'll tap into expert resources with deep product know-how, ensuring project success and reducing risk.

Predictable, low-cost services: Implementation Bundles are designed to be cost-effective while delivering the most high-value business and technology use cases for every Aurea product. The outcomes are always positive and predictable.

Aurea Unlimited provides you with every product in our portfolio as part of your subscription. You have access to tens of millions of dollars in software, enabling you to reap massive cost savings with unconstrained capacity. And what's more, your subscription keeps getting better with new products being added all the time.
